

YouthBuild Program Introduction to Construction

This month we added a new program in partnership with the George Gervin Youth Center. YouthBuild San Antonio is part of a nationwide mission aimed at community leadership and development. It provides its trainees with marketable construction skills as well as career planning.

In the first two weeks the participants have completed their First Aid/CPR Certification, OSHA-10 Hour, Material Handling, and Hand & Power Tools Training.

YouthBuild Program

Fernando Figueroa, Cude Engineers teaches First Aid/CPR Class.

Shorm Consulting helping with the CPR Training.

Mark Warren, Joeris General Contractors, Ltd. gives life lessons to the participants.

Participants learning about safe handling of power tools.

Kyle Wisniewski, F.A. Nunnelly Company, helps out with Power Tool Training.

Roger Olson, Allegiance Crane & Equipment keeps a watchful eye on students.

Turner Construction Co. giving students some hands on experience.

Jack McKinney, Voges Drilling Company showing how to use a circular saw.

Thank you to the volunteers for helping out with Power Tools Training.

Thank You Sponsors!
